

EQUI'SANTE
EQUI'SANTÉ ENDOWMENT FUND

Join the patrons and donors who have chosen to take action.

Investing in equine health
means investing in the future of the industry.

Great achievements are built on solid foundations.
Horse health is one of them.

Become a Patron of Equine Health

Support excellence.
Protect our horses.
Pass on a living heritage.

The horse deserves excellence

It embodies heritage, elegance, power, drive, and emotion!

A symbol of French equestrian tradition and the excellence of French horse breeding, it embodies a living heritage shaped by generations of enthusiasts. Since 2011, Traditional French Equestrianism has been inscribed on UNESCO's List of Intangible Cultural Heritage.

BUT TODAY, ITS HEALTH IS A STRATEGIC ISSUE.

Infectious diseases, parasites, and climate change are undermining the entire equine industry.

For 25 years, RESPE has been monitoring, alerting, and protecting. With more than 1,240 sentinel veterinarians and 60 diseases under surveillance, it serves as the scientific backbone of equine health surveillance in France, monitoring 70% of the equine population.

The Equi'Santé Endowment Fund was created as a result of this momentum.

MAINTAINING EQUINE HEALTH MEANS:

Protecting an exceptional cultural and sporting heritage
Ensuring animal welfare
Safeguarding an economic ecosystem
Advocating for a responsible
and sustainable vision for the industry

Becoming a Patron of Equine Health: An Exceptional Commitment

Supporting Équi'santé means choosing to take action where it all begins :
the horse's health

Your donation funds much more than a single initiative,
it provides long-term protection for the entire equine industry.

In particular, it allows you to :

- **anticipate outbreaks before they strike** a stud farm, a training center, or a breeding facility,
- **prevent the abrupt halt of a competition circuit**, the cancellation of a sale, or the exclusion of an exceptional horse,
- **ensure a safe environment** in which foals and champions can grow up,
- **advance scientific knowledge in order to protect** not only horses, but also the men and women who care for them.

By making a donation, you help build an environment where athletic performance and breeding excellence are built on a foundation that is often overlooked but essential : **health**

TAX BENEFIT INCOME TAX

For French citizens, 66% of your donation is deductible from your income tax, up to a limit of 20% of your taxable income

France has signed tax treaties with certain countries that may address gifts. Each donor should contact the tax authorities in their country to find out about their rights.

A commitment that reflects who you are

You can :

- support a cause that is important to you,
- make your initiative sustainable,
- support a major scientific research project,
- or contribute to the overall development of the fund.
